SPR with Mo - Video Voice-over Script

English narration for the 4 min 26 s video guide

How to record

- Record each take as a SEPARATE file, named 01, 02, 03 ... (phone voice memo, mp3/m4a/wav - anything works).
- Quiet room, phone about 20 cm away, natural friendly pace - like showing a colleague.
- Leave about 1 second of silence at the start and end of each file. Don't chase the exact timing - every take will be placed at the right moment and gently adjusted.
- The script already matches the on-screen subtitles.
- A single long recording is also fine - it will be cut to fit.
